[redacted] an Advisory Commission [redacted] inspected the areas of Edderitz, Uderleben, Badra, and Steintalleben. These areas are being geologically surveyed as possible sites for copper ore mining.

[redacted] a Geological Commission whose preliminary reports had led the State Planning Commission to add 850,000 tons to the Five-Year Plan figure of 1.8 million tons of copper ore to be mined in 1955.

The Advisory Commission found the preliminary reports ill founded; the Commission concludes that, if developed, the areas inspected might produce 80 - 120,000 tons of ore in 1955.

The Advisory Commission consisted of:

Mr. Pinkvoss	-	State Geological Commission
Dr. Koelbel	-	" " " (Geol. Service, Berlin)
Dr. Kautsch	-	Mansfeld Combine "Wilhelm Pieck"
